

Why Use Mosquito Management Systems?

We are a family owned and operated company located in the heart of Houston, Texas.

Our customers receive our immediate personal attention and our number one goal is excellent customer service no matter what. Being a smaller company, you will receive the personal attention and friendly customer service larger companies can often lack with their overwhelming customer database. Our job is to protect families, businesses, pets and loved ones from mosquitoes and pests, and we take pride in our high quality of products, service, and staff.

We are the manufacturer.

That means NO middle man for our customers to deal with. Our shop technicians build, repair, and troubleshoot all of our systems in our warehouse so you always know who has their hands on your system. We install our systems by a crew of uniformed technicians, and provide easy & efficient service plans for our customers to choose how they would like their system to be maintained year round.

We use nothing but the best products for our customers.

The chemicals that we use are eco-friendly, biodegradable and leave behind no residue. We have our systems installed at animal clinics, horse stables, vegetable/flower gardens, even around natural Texas ponds and lakes. Our systems are completely safe to use around your family, friends and pets.

We can take care of everything.

Having an outdoor party and want extra coverage? Call us and we'll schedule a technician to come give your home an extra boost of protection with our FastFog treatment. Noticing other pests around the house? We also offer Full Service Pest Control to all customers. Bees, roaches, spiders, rats, ants, you have them; we'll get rid of them. Our Full Service Pest Control is also offered to our mosquito misting customers at a discounted rate, so you'll never have to worry about bringing another contractor into your home again.

Have an emergency service request? No problem.

Contact our office and we will get someone out to your home within 24 hours of your call, unless otherwise scheduled. There is no additional charge for an emergency service request when you are under our Full Service plan, so there is no need to worry; we've always got you taken care of.

Let our family protect your family.
